Design principle: *Minimal on the surface. Personality in the details.*

01. Brand Direction

TheRuuxshouldfeellikeafashioneditorialthat happens to be shoppable. Keep the interface quiet and premium, then let product imagery, collection stories and small pieces of copy create personality.

Visual references: OWR for clean product-first minimalism; No Idols for restrained green, editorial storytelling and occasional expressive typography; Sotbella for clean fashion e-commerce presentation.

Colour: off-white base, black/deep charcoal text, TheRuux green as an accent. Do not make the whole website green.

Cursive: use only for short editorial phrases such as “Beyond Boundaries” or a collection concept. Never use cursive for navigation, prices, product titles or core UI.

02. Header — Important Hero Update

Final decision: The first homepage videostarts directly behind the topheader.The header is **transparent/overlayed on top of the hero video**.

Left: hamburger menu. Centre: THE RUUX logo. Right: Search · Wishlist · Profile · Bag. These controls remain visible over the video.

Do not place a separate cream/white header above the video. The first frame should feel like one continuous hero.

The tagline “Beyond Boundaries” can appear in side the hero in the cursive accent. Avoid repeating the large THE RUUX logo inside the video because the header already carries it.

03. Homepage — Final Order

ORDER	SECTION	WHAT IT DOES
01	FULL-SCREEN HERO VIDEO	Video begins at the very top. Header overlays the video. Show “Beyond Boundaries” in cursive + Explore CTA. Add subtle slide/progress indicator if desired.

03	UDBHAV COLLECTION	Large editorial image/video, short collection story, restrained cursive phrase, Explore Udbhav CTA.

05	BESTSELLERS	One strong homepage visual. CTA opens the dedicated Bestsellers product grid.

07	STAY IN THE RUUX	Minimal email signup for new drops and stories.
08	FOOTER	Shop · TheRuux · Help · Account · Follow · Legal.

04. Mobile Homepage

Mobile should not simply be a squeezed desktop site. It keeps the same hierarchy but uses a vertical, thumb-friendly layout.

ELEMENT	MOBILE DIRECTION
Hero	Full-width vertical video/image. Header overlays the video: hamburger left, THE RUUX centre, Search/Wishlist/Profile/Bag right. “Beyond Boundaries” sits inside the hero.
